

ENVIRONMENTAL POLICY STATEMENT

This Environmental Policy Statement and its associated procedures applies to all commercial activities of Bury Developments Ltd, wherever they are carried out, and are to be followed by all employees as well as any nominated third parties working on the Company's behalf.

This Environmental Policy Statement is also communicated to customers & suppliers and is made available to other interested parties as required and appropriate.

Bury Developments Ltd is a long-established contractor for the provision of new build, refurbishment and allied services to clients.

Bury Developments Ltd is aware that its activities affect the environment in many and diverse ways, of the necessity to improve the environment by use of an effective environmental management system and to control the impact of its products and services. It strives to achieve this by the setting of objectives for the continual improvement of its environmental performance.

Bury Developments Ltd endeavours to ensure that its activities comply fully with all relevant UK and EU environmental legislation, the requirements of ISO 14001:2004 and accepted best practice.

To deliver this Bury Developments Ltd will:

- Endeavour to ensure that its activities are safe for its employees, customers, sub-contractors, neighbours and any others associated with its business
- Endeavour to maintain current and reliable information on the environmental impact of the products and services it supplies and make this available on demand to enable its customers and other interested parties, where appropriate, to make informed choices.
- Understand the sensitivities of its customers including the pressures of growing and changing statutory and public concern about environmental issues and assist them in complying with and delivering environmental best practice.
- Identify opportunities to reduce any environmental impact of its activities at an early stage and implement these changes where appropriate.
- Communicate its environmental performance within the Company, to its customers and where appropriate to the external community.
- Raise staff awareness of environmental issues and promote individual good practice.
- Encourage its suppliers to provide goods and services with the minimum adverse environmental impact and give preference to environmentally aware suppliers whenever possible.
- Endeavour to ensure that it purchases goods and materials that comply fully with UK and EU legislation and recognised environmental best practice.
- Audit and undertake regular reviews of the effectiveness of this Environmental Policy Statement and its associated procedures, measurement methods, objectives and targets and progress towards meeting those objectives and targets.
- Strive to implement processes that lessen the Company's environmental impacts and to integrate environmental considerations into all future Policy decisions.
- Make efficient and environmentally responsible use of energy, water and other natural resources.
- Take all reasonable steps to prevent pollution of both its local and wider environments.
- Employ sound waste management practices and maximise the recycling of waste products.
- Develop and maintain emergency procedures to deal effectively with any significant environmental hazards or incidents that may arise as a result of its activities.
